EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicants' amendment filed on May 23, 2006, has been fully considered and entered.

Reasons for Allowance

2. Claims 6-10 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in claim 6. Specifically, the prior art of record fails to disclose an optical antenna comprising an optical system that transmits, when the optical signal is radiated from the optical transmitting and receiving devices, the optical signal to the space by refracting the optical signal to form spherical waves, and focuses, when the optical signal arrives from the space, the optical signal onto the optical transmitting and receiving devices and a selector that selects a desired optical fiber from a plurality of optical fibers mounted on the arrangement mechanism, and that connects the optical fiber selected to the optical transmitting and receiving devices in combination with the other limitations of claim 6.

Claims 7-10 depend from claim 6.

The newly cited reference, Mouri (U.S. 2004/0234193) discloses an optical communication system having an optical transmitter and an optical receiver. However, Mouri does not disclose a device having a selector that selects a desired optical fiber from a plurality of optical fibers mounted on the arrangement mechanism, and that connects the optical fiber selected to the optical transmitting and receiving devices.

Claims 6-10 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
